### Residents and businesses

Stormont Road area  
(area bounded by Lavender Hill,  
Cedars Road, Clapham Common North Side  
and Lavender Sweep)

Dear resident or business occupier,

### Stormont Road area – traffic management scheme consultation

The council is seeking your views on the experimental scheme that was introduced in March 2011 to stop unnecessary traffic from using the Stormont Road area residential road network as a cut through (see plan overleaf for this area). The restrictions prohibit vehicles turning right into residential roads from Clapham Common North Side.

In line with the council's commitment, it is proposed to review the scheme to determine how effective the measures have been and determine whether there is support to retain the restrictions, and if so, whether these restrictions should remain operational for twenty four hours or be limited to another time period as outlined on the questionnaire enclosed.

The council is keen to know your views. Please complete the questionnaire and return it using the prepaid envelope provided, to be received no later than **16 March 2012**. In order that the views expressed can be taken into consideration, it is necessary that the property number and address are completed on the returned questionnaire.

Should you require any further information or assistance do not hesitate to contact Wayne Stockley on (020) 8871 8208 who will be pleased to help.

Yours faithfully

**Steve Kempster**  
Assistant Head of Operational Services
